

Mandatory Language for Monitoring and Reporting Violation

SURFACE WATER MONITORING, ROUTINE MAJOR

The CITY OF ALAMO, PWS ID TX1080001, has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Public water systems that treat surface water and/or ground water under the direct influence of surface water are required to submit monthly operating reports with operational data of the water provided to their customers.

We failed to monitor and/or report the following constituents late submittal of SWMOR report

This/These violation(s) occurred in the monitoring period(s) February 2016
<monitoring period of violation>

Results of regular monitoring are an indicator of whether or not your drinking water is safe. We did not complete all monitoring and/or reporting for surface water constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

We are taking the following actions to address this issue:

The surface water monitoring report will be submitted before every 10th of the month.
